EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Concerning independent claims 1, 33, and 67, the prior art of record does not disclose or reasonably suggest the combination of a source model and a channel model, where a probability density defines a given set of model parameter values, and determining a quality measure and outputting parameter values of speech before it was distorted. It is generally known to taken into account both parameters of a source and parameters of a channel in speech recognition, but the prior art does not reasonably suggest a probability density function for outputting both a quality measure and pre-distorted speech.

Concerning independent claims 29 and 61, the prior art of record does not disclose or reasonably suggest a database containing annotations including a quality measure, determining a quality measure for an input audio query, and comparing data representing the input query and annotation data in dependence on the quality measure of the query and the quality measure of the annotation. *Li et al. ('181)* discloses it is known to annotate speech data, but not for the purpose of measuring quality of a signal. Applicant's Specification, Page 9, Line 10 to Page 10, Line 4, states that it is useful to annotate audio data with a quality measure so that if both the voice annotation quality measure and the voice query quality measure are high, then a stringent search is

performed, but if either the voice annotation quality measure or the voice query quality measure are low, then a less stringent search is performed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin Lerner whose telephone number is (571) 272-7608. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Thursday.
